

CAPSULE SUMMARY**CT-647****Sally M. Peterson Cross-Gable House****4001 J. Lloyd Bowen Road****St. Leonard, Calvert County****c1900****Private**

Built circa 1900, the historic house at 4001 J. Lloyd Bowen Road is an intact example of a turn-of-the-20th-century dwelling in Calvert County. The house features elements common to the period including prominent off-center open gables, a rear ell, and a wrap-around porch. The house appears to be the oldest building on the peninsula. Its location directly on Island Creek and across from Broomes Island, which had been active in the local fishing industry since the late 19th century, suggests that the residents of the dwelling may have initially been associated with the fishing industry. The house, like many on the Patuxent River, now serves as a summer home.

Facing southwest, the two-story, vernacular, wood-frame dwelling has an L-shaped plan with a rear ell and a one-story addition to the rear of the ell. Set on a brick pier foundation, the dwelling features original German-weatherboard cladding behind the screened porch on the first story and aluminum siding elsewhere. A cross-gabled roof with asphalt shingles caps the building. Two interior-end, brick chimneys rise from the main block of the house. The house has projecting gables and eaves with a molded cornice and a blank fascia. The three-bay façade (southwest elevation) features an off-center open gable and a one-story, wrap-around-screened porch supported by wood posts on the first story. Five 6/6 wood-sash windows with thin molded surrounds and a central, single-leaf door pierce the elevation. The two-bay southeast elevation is designed similarly to the façade. A circa 1930 two-story addition is located between the main block and the ell. A circa 1990 one-story addition with a side-gabled roof; an exterior-end, shouldered, brick chimney; and a shed-roof porch extends to the northeast of the rear ell. Associated with the dwelling are two non-historic sheds and one historic shed constructed from the remnants of a barn originally located in Prince George's County.

Condition

<input type="checkbox"/> excellent	<input type="checkbox"/> deteriorated
<input checked="" type="checkbox"/> good	<input type="checkbox"/> ruins
<input type="checkbox"/> fair	<input type="checkbox"/> altered

Prepare both a one paragraph summary and a comprehensive description of the resource and its various elements as it exists today.

SETTING. The house is located on a peninsula of land across Island Creek from Broomes Island. Set on a level lot with mature trees and shrubs, the property is surrounded by a grassy yard and further enhanced with foundation plantings. A gravel driveway accesses the dwelling from the southeast. East of the house is a wooded area. Two historic sheds and a non-historic shed are located on the property.

PRIMARY RESOURCE. Facing southwest, the two-story, vernacular, wood-frame dwelling was constructed circa 1900. The dwelling has an L-shaped plan with a rear ell and a one-story addition to the rear of the ell. Set on a brick pier foundation, the dwelling features original German-weatherboard cladding behind the screened porch on the first story and aluminum siding elsewhere. A cross-gabled roof with asphalt shingles caps the building. Two interior-end, brick chimneys rise from the main block of the house. The house has projecting gables and eaves with a molded cornice and a blank fascia. The three-bay façade (southwest elevation) features an off-center open gable and a one-story, wrap-around-screened porch supported by wood posts on the first story. Five 6/6 wood-sash windows with thin molded surrounds and a central single-leaf door pierce the elevation. The two-bay southeast elevation is designed similarly to the façade. A circa 1930 two-story addition is located between the main block and the ell. A circa 1990 one-story addition with a side-gabled roof; an exterior-end, shouldered, brick chimney; and a shed-roof porch extends to the northeast of the rear ell.

SECONDARY RESOURCES. Located north of the dwelling is a 1970s one-story shed built to house a hot-water heater and was moved to its present location by the water in the 1980s. The shed features wood-frame construction utilizing historic materials, plywood cladding, and a shed roof with asphalt shingles. On the northeast side of the gravel drive, east of the house, are two sheds. A circa 1940 one-story shed is the remains of a barn that was dismantled in Baden (across river in Prince George's County) and moved to its present site in the 1980s. It features vertical-board cladding, a front-gabled corrugated metal roof, and a concrete block pier foundation. A non-historic, one-story shed, constructed circa 1960, features a front-gabled corrugated metal roof, a solid concrete block foundation, and aluminum siding.

This two-story frame farmhouse includes a two-story ell to the rear. The building faces Island Creek to the south and west. The three-bay south facade includes a central cross-gable. A porch covers the south and east sides.

The facade's entrance appears in the central bay. An interior brick chimney heats either the end of the main section and the north end of the ell.

A two-story, one-bay-square frame building capped by a pyramid-roof stands north of the house, just a few feet from the northeast corner.
